

### Supplier Inspection Delegation

The part number on this Purchase Order has not been rejected by CFC's customer nor internal inspection program for a period of the past 12 months. Therefore, CFC has identified this part number to be on the Supplier Delegation of Inspection program. Seller is to maintain responsibility for all requirements of their Purchase Orders with CFC.

Revocation of the Supplier Delegation of Inspection occurs when:

- Supplier notifies CFC of an escape for a part number on the Supplier Delegation of Inspection program.
- CFC's customer alerts CFC of a rejectable condition of a part on the Supplier Delegation of Inspection program.
- CFC's random sampling inspection of Supplier Delegation of Inspection program's parts reveals a nonconforming condition.

This T&C will be removed from future Purchase Orders if the part number is removed from the Supplier Delegation of Inspection program.

Seller is to maintain inspection documentation and make available to CFC upon request.
