

Preservation (Parker Aero Specific)

**Upon invocation of this clause, Supplier shall abide by following Century Fastener's Terms and Conditions on delegation from Parker Aerospace's behalf.*

In order to detect deterioration, the condition of product in stock should be assessed at appropriate planned intervals. The Supplier should use an inventory management system to optimize inventory turns over time and should assure stock rotation, such as "first-in-first-out" (FIFO).

For Century Fasteners / Parker Aerospace suppliers, BPS4108 is the document that describes the requirements for achieving cleanliness, inspecting for cleanliness, maintaining cleanliness, providing corrosion protection and controlling cleaning solutions for Parker parts without damaging the parts or coatings. The Supplier shall use the methods and materials specified in BPS 4108 to assure adequate cleaning and preservation for all products to be delivered to Century Fasteners / Parker Aerospace.
