

Calibration System, Measuring and Test Equipment

*\*Upon invocation of this clause, Supplier shall abide by following Century Fastener's Terms and Conditions on delegation from L3 Harris Technology's behalf.*

Calibration of inspection equipment shall be in accordance with a nationally or internationally recognized standard (i.e. ISO/IEC 17025, ANSI NCSL Z540 or ISO 10012) to the extent necessary to maintain required levels of accuracy. This is subject to Century / L3Harris approval. If production tooling such as jigs, fixtures, templates, and patterns are used as a media of inspection, a calibration plan shall also be established.
