

PACKAGING

Where Lockheed Martin “Procure-2-011” or this document is listed, the following applies. This covers section 3.17 and is not the full document requirements.

3.17 PACKAGING

3.17.1 Sikorsky Purchase Orders:

Sikorsky packaging requirements covered in FOD Prevention reference Appendix C.

3.17.2 All Other RMS Purchase Orders:

Seller shall comply with packaging requirements identified in LM drawings, Statement of Work, or on the Purchase Order. Unless otherwise specified, Seller shall determine the packaging methods and materials used to ensure products are protected against corrosion, contamination, deterioration, ESD damage, and physical damage during transit to the delivery address specified in the PO. Products shall be individually wrapped, bagged, or otherwise protected to prevent twisted and entangled leads and part-to-part contact within the shipping container.
